Summary

Innovative and adaptable fresher with a passion for turning ideas into real-world solutions. Quick to grasp new tools, technologies, and workflows, thriving in dynamic environments. Proven ability to build diverse projects by blending creativity with practical execution. Equally confident handling technology-driven tasks or operational challenges. Logical thinker with strong problem-solving skills and the ability to act decisively. Highly organized, punctual, and committed to delivering quality

Education

GLS University BCA 7.37 CGPA	Jul, 2022 - Apr, 2025 FULL-TIME
Unique School Dhoraji Class - XII (HSEB) 82.57 %	Jun, 2021 - Mar, 2022 FULL-TIME
Unique School Dhoraji Class - X (GSEB) 65.83 %	Jun, 2019 - Mar, 2020 FULL-TIME

Projects

Stock Market Analysis Platform ATkinter-based desktop platform designed to help investors and traders analyze stock market data. It offers real-time data via yfinance, interactive Matplotlib charts, technical analysis tools, and algorithmic trading with custom strategies. - Designed an intuitive GUI using Tkinter for enhanced user experience. - Integrated real-time market data fetching with yfinance. - Developed custom algorithmic trading and backtesting functionality.	Mar, 2024 - Apr, 2025
Payment Display Box Embedded system that displays UPI payer name/ID and amount in real time, helping shopkeepers easily identify payers in crowded environments. Works alongside existing payment systems, ensuring no transactions are missed. - Designed and developed a real-time UPI payment display system. - Provided a modern, efficient alternative to existing payment sound boxes. - Provided instant visual confirmation to prevent confusion or disputes. - Improved shopkeeper efficiency by enabling quick payer identification.	July, 2023 - Feb, 2024
